

**Utica Park Clinic (UPC) and Oklahoma Heart Institute (OHI)
Announce Telehealth Options and Temporary Clinic Hours**

Convenience has always been important. Now, social distancing is too.

Please take advantage of the following telehealth visit options that are available for your safety and convenience:

VISIT FORMAT	FOR WHO?	WHAT IS IT?
Video Visits	New and Current UPC and OHI patients	A real-time audio/video call with your health care provider using the appropriate technology
MyChart E-Visit	Current UPC patients	Written electronic communication between you and your health care provider through UPC's MyChart
Virtual Check-In	Current UPC patients	Telephone call with your UPC health care provider

Additionally, in an effort to practice social distancing and reduce the spread of COVID-19, hours of operation for in-person visits have been modified. Effective immediately:

- Most UPC locations are closed on Fridays.
- OHI clinics are closed on Tuesdays with one exception: the cardiovascular thoracic surgery (CVT) clinic, which will be open on Tuesdays, but closed on Fridays.

Discontinuing in-person visits one day per week is a temporary response to the COVID-19 crisis. We are evaluating the circumstances on a week-to-week basis and plan to return to normal business hours as soon as possible.

Please know that we are making every effort to provide the health care services you need in a timely and creative manner. Your patience and understanding is greatly appreciated during this challenging time.

For more information or to schedule an appointment, contact:

- **Utica Park Clinic - call your clinic directly or 918-579-DOCS (3627)**
- **Oklahoma Heart Institute – call 918-592-0999**
